

# Mobile Application Review

## Objectives

This assignment is to review existing mobile applications in the field of news and journalism.

1. Find five iOS, Android, or Windows Phone applications that are in the field of news and journalism. These could be from large, established media organizations, or from small and unknown groups. If possible, download them to your phone or tablet so that you can experiment with them. If you have any questions about whether an app is suitable, email Jeff at [jlinwood@gmail.com](mailto:jlinwood@gmail.com).
2. For each of these apps, evaluate their usability, design, and functionality. Find at least three things that you like about each app and three things that could be improved with each app. You can use a bulleted list format.

## Prerequisites

No prerequisites needed.

## Grading Evaluation

Name	Points	Description
Five Mobile Applications	10	There are five mobile applications related to news and journalism in the report
Three nice things about each mobile app	45	Each mobile app has at least three bullet points about things your team liked
Three improvements for each mobile app	45	Each mobile app has at least three bullet points about things your team disliked
<b>100</b>
